Launch of « Laffitte Equity Arbitrage » Equity Arbitrage Fund (Ucits III)

Laffitte Capital Management proceeds with its growth and announces the launch of an arbitrage equity Fund using an Ucits III format: Laffitte Equity Arbitrage.

The Fund's strategy is to detect the best arbitrage opportunities in Europe and in North America by using a double thematic approach:

- * A Thematic « Event » which aggregates long/short positions based on catalysts like merger, pre-merger or index re-balancing;
- * A Thematic « Structure of Capital » which positions are based on right issues, dual listing, « share class » arbitrage and holding arbitrage.

« Our goal is to propose our clients a wider arbitrage Fund uncorrelated to the equity markets. The process is similar to our other Funds. It uses a fundamental analysis linked to a probabilistic-statistical analysis and an optimization of the portfolio's allocation. » explains Arnaud Yvinec, co-manager of the Fund.

Laffitte Equity Arbitrage will have a daily liquidity and will be referenced on life-insurance platforms.

For more information, please contact David Lenfant +33 1 55047930.
